

FSA, HSA, AND VISION BENEFITS

(321) 269-2021

Your Benefits May Reset. Your Style Does Not Have To.

Many vision plans and FSA funds reset December 31. Use yours on:

- Prescription eyeglasses and prescription sunglasses
- Lens upgrades such as progressive lenses, anti-reflective coatings, and Transitions lenses
- Contact lenses

FSA deadlines and vision insurance benefit periods vary by employer and plan. HSA funds generally do not expire and carry over from year to year. Prescription eyewear and contact lenses are generally eligible HSA and FSA expenses; eligible purchases and reimbursement rules depend on your plan, so check with your benefits administrator for your coverage and your deadline.
